1. Contact Martha Williams

Send a personal message to USFWS Director, Martha Williams explaining why you want grizzlies to remain protected. A personal message sent from your personal email will have a greater impact than a form letter or petition signature.

Martha Williams
Director, USFWS

1849 C Street NW, Room 3331
Washington, DC 20240-0001
martha_williams@fws.gov
Call the USFWS: (800) 344-9453

2. Contact Deb Haaland

Send an email to Deb Haaland, Secretary of the Department of Interior explaining why you want grizzlies to remain protected. A personal message will have a greater impact than a form letter or petition signature.

Deb Haaland, Secretary of Interior
U.S. Department of the Interior
1849 C Street, NW
Washington, D.C. 20240
exsec_exsec@ios.doi.gov
[Visit this site here to send a message](#)

3. Be Relentless on Social Media

Tag, hashtag, post, directly call out, and respond to posts on Facebook, Instagram, X, and TikTok. We have to counter the narrative that bears are everywhere and their populations need to be controlled. This is the story the states want us to believe. It's not true.

*Pay special attention to posts that are newspaper articles

Hashtags:

#BearsBelong
#DontDelistGrizzlies
#GrizzlyBear
#KeepGrizzliesProtected

X Handles:

@SecDebHaaland
@USFWS
@Interior
@POTUS

Sample X Posts:

***A note on X's copypasta policy: Please be aware of [X's copypasta policy](#). Whenever possible, repost or quote post instead of directly copying social guidance. If you use our social guidance, try to modify the post (even just 1-2 words), instead of pasting it in as written.

- In the Northern Rockies, grizzly bears are a part of our unique wildlife heritage. Now is NOT the time to remove fed'l protections for bears! Tell @USFWS @Interior to keep grizzlies protected under the Endangered Species Act. #bearsbelong
- Grizzlies are beginning to recover in parts of the Northern Rockies, but now is NOT the time to remove fed'l protections @USFWS @Interior must keep safeguards in place. #bearsbelong
- Did you know grizzly bears still face threats? Human-caused mortality is a significant threat to grizzly bear recovery, even with federal protections. Stand up and tell @USFWS @Interior to keep bears protected under the ESA. #bearsbelong
- Removing federal protections from grizzlies would turn their future entirely over to hostile states where a "managed bear is a dead bear". Tell @USFWS @Interior to keep ESA protections in place #bearsbelong

Sample Facebook/Instagram Posts:

- 🐻 In the Northern Rockies, grizzly bears are a symbol of our unique Western wildlife heritage. While they're making strides towards recovery, the work isn't done. With hostile state governments threatening grizzly bears and other carnivores, now is NOT the time to remove protections. We need science-backed safeguards to ensure their future. Take action and tell @USFWS @USInterior to keep bears protected under the Endangered Species Act #BearsBelong #DontDelistGrizzlies #GrizzlyBear

- Grizzly bears are beginning to recover from a century of persecution and habitat loss, but now is NOT the time to remove federal protections. @USFWS and @USInterior must keep safeguards in place until science shows grizzly bears are fully recovered and until the states have adequate rules in place to ensure grizzly bears will thrive for future generations. Join the fight to keep grizzly bears on the Endangered Species List! Every voice counts. #BearsBelong #DontDelistGrizzlies #GrizzlyBear
- Did you know grizzly bears still face threats? Removing federal protections would turn management entirely over to hostile states and would spell danger for grizzly bears - think trophy hunting and aggressive 'management' plans. Stand up for their survival and tell @USFWS and @USInterior to keep bears protected under the Endangered Species Act. #BearsBelong #DontDelistGrizzlies #GrizzlyBear
